

CRITICAL ILLNESS INSURANCE

Due to advanced medical technology and preventive care your chances of surviving a heart attack, stroke, end stage renal disease, or coronary artery disease and cancer have increased over the years. However, survival of a specified disease can also mean substantial health care costs. Cancer and Critical Illness coverage offers lump sum benefits that can help you pay out of pocket expenses resulting from a specified disease.

- Coverage is available to you and/or your family
- Benefits are paid directly to you
- Pays in addition to insurance you may already have
- Affordable premiums
- Available through payroll deductions or through employer
- Get added protection for you and your family!!!
- Annual Wellness Benefits available

CANCER INSURANCE

Most of us know someone who has experienced a cancer diagnosis. The good news is that preventive care and

medical advancements have gotten a lot better in recent

years. However, recovery periods can mean loss of income

and high out of pocket medical costs. Cancer insurance can provide financial assistance and some peace of mind when additional money is needed to cover expenses like radiation, chemotherapy, transportation, lodging, drugs, private

nursing, anti-nausea, medicine, etc.

- Coverage is available to you and/or your family
- Benefits are paid directly to you
- Pays in addition to insurance you may already have

- Affordable premiums
- Available through payroll deductions or direct to individuals
- Get added protection for you and your family!!!
- Annual Wellness Benefits available
